RESTRICTION/ELECTION REQUIREMENT
UNDER 35 U.S.C. 121

Sir:

This response is accompanied by a petition for an extension of time.

In Paper Number 11 dated September 27, 1996, the Examiner has restricted the claims to two inventions and requested an invention election. Applicants elect without traverse Group I: Claims 1-96, drawn to a blast resistant container. Applicants further elect Species II (Figures 2A - 2C), for prosecution on the merits. Claims readable on Species II include: 1-6, 8-32, 33-36, 37-41, 43-57, and 74-76. The species election is made with traverse; while Applicants agree that there is no single generic claim to all of the species defined by the Examiner, several of the Group I claims are considered to be generic to more than one of the species.

Applicants appreciate the courtesy extended during the telephone conversation of
